ABOUT ME

I'm a Game Design student at the University of Europe for Applied Sciences with over 3 years of experience creating immersive, story-driven games. I specialize in building interactive worlds using Unity, Unreal Engine, Maya, C++ and C#, and I've contributed to published projects on itch.io. I enjoy leading teams, solving creative challenges, and designing gameplay systems that feel polished and emotionally engaging. My goal is to make games that leave a lasting impact.

WORK EXPERIENCE

Volunteer Coordinator
Amaze Berlin | 2025-2025
Volunteered at A MAZE.; assisted newcomers by introducing them to Indie games and guiding them through gameplay.

Volunteer
GamesGround | 2024-2024

Volunteered at GamesGround; welcomed attendees, handled ID verification at the entrance, and discussed their career paths and interests in the meantime.

Event Manager
Nosolo Tribe | 2022-2024

Handled on-site event operations, managed teams, and resolved real-time challenges. Ensured smooth coordination and effective communication under pressure.

Part-Time Barista
Corridor 7 - Part-time | 2022-2024
Delivered quality customer service in a fast-paced café environment. Managed orders and workflow efficiently while maintaining professionalism and attention to detail.
