Prabhdeep Singh Chhatwal

3D Procedural Artist & Game Developer

Berlin, Germany | prabhdeepchhatwal20@gmail.com | LinkedIn | Portfolio

PROFILE

Game Design student in Berlin, working somewhere between 3D art and code. I model and texture assets in Maya and Substance Painter, bring them into Unity and Unreal for real-time use, and increasingly build them procedurally in Houdini instead of by hand. I'm drawn to the technical side of art: shaders, modular systems, small rules that generate a lot of variation. I write C# and C++ to support that work. Looking for a working student role where I can apply this on an actual production pipeline.

TECHNICAL SKILLS

3D & Procedural Tools: Houdini SideFX (procedural/rule-based modeling), Maya 3D, Substance Painter, Unity, Unreal Engine
Core Skills: 3D modeling, UV unwrapping, PBR texturing, shader-driven & animated materials, real-time asset integration
Programming: C#, C++ — interest in procedural generation (noise functions, modular design patterns, rule-based systems)
Other Software: Adobe Photoshop, Premiere Pro, After Effects, MS Office (Word, Excel, PowerPoint), Canva
Languages: English (C1), German (A1), Hindi & Punjabi (Native), Marathi (B2), Japanese (A2), Italian (A1)

SELECTED TECHNICAL WORK

- Procedural / modular asset work in Houdini, brought into Unity and Unreal — full breakdowns in my portfolio.
- Environment and prop pipelines: modeling, UV unwrapping and PBR texturing in Maya and Substance Painter.
- Portfolio has the full project reels and shader/material work, including things that don't fit on a CV.

EXPERIENCE

Event Manager (Student Staff) | University of Europe for Applied Sciences *2024 – 2026*

- Help plan and run university events as part of the student staff team — juggling a lot of moving pieces and people at once.
- Good practice in staying calm and clear when a schedule slips or something needs fixing on the spot.

Event Manager | Nosolo Tribe *2022 – 2024*

- Ran on-site operations for events and led small teams through them, sorting out logistics problems as they came up.
- Worked across departments to keep multi-day events on track.

Volunteer Coordinator | A MAZE. Berlin (International Indie Games Festival) *2025*

- Helped new volunteers and first-time attendees find their feet at the festival and get the most out of the program.

Volunteer | GamesGround *2024*

- Handled entrance/ID checks and talked with a lot of attendees about their careers and interest in games.

EDUCATION

B.A. Game Design *Expected 2027*
University of Europe for Applied Sciences, Berlin — Current average: 91.85%

B.A. Creative Technologies *Feb 2026 – Aug 2026*
Nuova Accademia di Belle Arti — Result: 95.56%
